

# Directions to the Passenger Drop-off at the San Diego Supercomputer Center

From Genesee Avenue traveling west, turn left onto North Torrey Pines Road.

Enter the UCSD campus at North Point Drive. Drive past the Information Booth on the right and continue as North Point Drive turns right and becomes Hopkins Drive.

Drive past the playing field and the large RIMAC structure on the right. Immediately beyond RIMAC, turn right into the driveway right before the entrance to our new SDSC facility extension. Drive to the top of the hill, between the SDSC and RIMAC buildings to the turn-around area next to the handicapped parking. There will be room to drop off passengers and turn around to exit.
