

# TeacherTECH 2009

## Technology Training for Teachers

Sponsored by the San Diego Supercomputer Center  
University of California, San Diego

### **Moodle II: Intermediate Moodle for Educators (Course fee \$45.00)**

Prerequisite: Moodle I (Beginning) or equivalent use of Moodle

July 25, 2009

Class meets in the SDSC Training Room from 8:30a.m. – 3:30p.m.

### **Moodle II: Intermediate Moodle Training for Educators**

#### **Workshop Overview**

Participants should be familiar with the basics of Moodle, including how to add activities and files, and how to navigate a Moodle course. This course will teach you strategies on how to implement online collaboration and interaction in Moodle. Covered in this course will be glossaries and online assignments, online discussion and collaboration, data driven decision making, construction of online self-graded quizzes and collection of data to help drive your instruction.

#### **How Does the Use of Moodle Benefit Teaching and Learning**

Moodle is designed around a professional learning community; it allows teachers to act as facilitators of learning and to provide a framework for face-to-face and online interaction that may take place both in and out of the classroom. Through this framework, the students and teachers will be able to experience collaborative online interaction where ideas can be shared and a consensus to understanding can be constructed in online activities, discussions, and interactions.

Moodle also provides teachers with a means to create differentiated learning opportunities for students, where online discussion and collaboration can go on apart from other groups as needed, thereby allowing for a more individualized approach to student learning.

#### **Who Should Attend**

K-14 Teachers, and Administrators. Not only can Moodle be used in a classroom environment with students of all ages, but as a tool to build an online professional learning community at your school site, central office department, or with whomever you collaborate and/or support.

**SDUSD Salary Advancement credit is available via DISCOVER PROGRAM. To register for the class, please follow this two-step procedure:**

- 1) Complete and mail TeacherTECH course registration fee and form found on the next page as instructed.
- 2) Register online with the Discover Program  
<http://216.122.44.192/SandiNetDiscover/RegisterOnline2.asp>
  - a) Mail payment of \$45 for .5 credits (8 hours) to: Discover Program, 4100 Normal Street, Room 2038, San Diego, CA 92103-2682
  - b) Make check payable to SDUSD.

For questions, please contact Esther Caluza at (619) 785-7424 or email [caluza@sdsc.ucsd.edu](mailto:caluza@sdsc.ucsd.edu)

#### **What Will Be Covered:**

- Glossary and Online Assignments
- Online Discussion and Collaboration
- Data Collection Asking Questions and Data Driven Decision Making

**Professional Development Credit is also available via UCSD Extension.  
This is a one-quarter unit course**
